

The background of the entire page is a blurred industrial scene. It shows several white, rounded containers or tanks in the foreground and middle ground. Above them, two spray nozzles are visible, suspended in the air. The nozzle on the right is in sharper focus than the one on the left. Both nozzles have a textured, metallic appearance and are coated with a yellowish substance, likely paint, at their tips. The overall lighting is bright and diffused, creating a clean, professional look.

HIRSCH-POL
PRIVATE LABEL MANUFACTURER

Are you looking for
a private label manufacturer?

Looking at creating your own brand
to meet market opportunities and needs?

We can help!

Hirsch-Pol is defined by over 44 years of experience and a distinctive approach:

- Continuous product development, strict quality control, and a strong focus on innovative solutions.
- Our own production facility, transforming raw materials into high-quality finished goods.
- A reliable delivery network exporting to numerous European countries.
- Modern, attractive designs for labels, packaging, and marketing materials.
- A wide product range: from classic universal paints to decorative finishes (metallic, mirror, fluorescent), specialty coatings (magnetic, zinc, aluminium, heat-resistant), and premium water-based, chalk, and 3D-effect paints (marble, granite, rust).
- Efficient, responsive customer support tailored to each client's needs.

From small-scale projects to demanding challenges, from local businesses to major manufacturers – Hirsch-Pol has the expertise and capability to deliver.

PRIVATE LABEL

UNIVERSAL ALKYD ENAMEL

EXCELLENT ADHESION

QUICK-DRYING

GOOD COVERAGE

Quick-drying alkyd enamel for interior and exterior use, available in both gloss and matt finishes. Provides durable protection and high-quality decorative coatings.

SURFACES:

metal, wood, glass, stone, cardboard, plaster, etc.

COLOURS:

wide range of colours.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	2-3 h
COMPLETELY DRY:	72 h

AQUA COLOR

GOOD COVERAGE

MILD FRAGRANCE

High-quality water-based enamel for indoor and outdoor use, with a gloss finish. Environmentally friendly, featuring reduced solvent content and a mild fragrance during application. Suitable for metal, wood, glass, stone, cardboard and plaster. For plastics, use a special primer designed for plastic surfaces.

SURFACES:

metal, wood, glass, stone, cardboard, plaster, etc.

COLOURS:

wide range of colours.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	2-3 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

METALLIC EFFECT

QUICK-DRYING

DECORATIVE FINISH

GOOD COVERAGE

Provides a striking metallic finish with a glossy coating suitable for decorative projects. Designed for both indoor and outdoor use, offering strong adhesion and durable colour.

SURFACES:

metal, wood, glass, stone, cardboard, plaster, etc.

COLOURS:

black, blue, green, red, silver, gold, copper.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	2-3 h
COMPLETELY DRY:	within 2-3 days

FLUORESCENT SPRAY PAINT

QUICK-DRYING

GOOD COVERAGE

Matt spray paint with fluorescent pigments that make its decorative coating glow vividly under UV light. Suitable for both indoor and outdoor use. Achieves the best results when applied over a white primer.

SURFACES:

metal, wood, glass, stone, cardboard, plaster, etc.

COLOURS:

wide range of colours.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	20-30 min
COMPLETELY DRY:	24 h

PRIVATE LABEL

MIRROR EFFECT

DECORATIVE COATING

QUICK-DRYING

GOOD COVERAGE

Decorative universal spray paint with a metallic-gloss finish. The varnish provides excellent coverage and adhesion, forming a reflective coating enhanced with fine metallic particles to create a mirror-like effect.

SURFACES:

metal, wood, plastic, glass, stone, etc.

COLOURS:

gold, antique gold, chrome, copper.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	within 2–3 days

ZINC SPRAY

ANTICORROSIVE

HIGH DURABILITY

RESISTANT TO ABRASION

Protects metal elements, including galvanised and non-galvanised steel. The coating is resistant to abrasion and weather conditions, and contains a high percentage of pure zinc.

SURFACES:

metal and cast-iron surfaces.

COLOURS:

grey zinc.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1-2 h
COMPLETELY DRY:	within 2–3 days

PRIVATE LABEL

ALU-ZINC SPRAY

ANTICORROSIVE

FOR PROTECTION AND RENOVATION

Protects metal elements, including galvanised and non-galvanised steel. The coating is resistant to abrasion and weather conditions, and contains a high percentage of pure zinc and aluminium.

SURFACES:

metal and cast-iron surfaces.

COLOURS:

aluminium.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1-2 h
COMPLETELY DRY:	within 2-3 days

HAMMER EFFECT

PERFECT ADHESION

DOESN'T CHIP OFF

ANTICORROSIVE

Weather-resistant, high-quality spray paint with a hammer-blow finish. Suitable for various materials used both inside and outside the home. Works on metal, wood, stone, clay, ceramics, glass and cardboard. For plastic surfaces, use a special primer designed for plastics.

SURFACES:

steel and cast-iron railings, fences, shelves, machine parts and furniture.

COLOURS:

silver.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

PRIMER SPRAY PAINT

ANTI-CORROSIVE PROTECTION

IMPROVES ADHESION OF TOPCOATS

High-quality primer for metal and cast-iron surfaces, designed for both indoor and outdoor use. Provides excellent anti-corrosive protection, evens out the surface and ensures strong adhesion of the next coats. Best results are achieved when applying several thin layers.

SURFACES:

For metal and cast-iron surfaces.

COLOURS:

Grey, red oxide, white.

CAPACITY:	400 ml
FINISHING LEVEL:	mat
DRY-TO-TOUCH:	1-2 h
COMPLETELY DRY:	within 2-3 days

IRON MICA

ANTICORROSIVE

PERFECT ADHESION

WEATHER & UV RESISTANT

Iron Mica is an ideal solution for protecting metal against corrosion. It is a 2-in-1 satin-finish paint, acting as both primer and topcoat for iron and steel surfaces. It can also be applied to wood, stone and glass. Perfect for protecting metal fences, gates, handrails, garden tools, and metal benches or chairs. Suitable for both indoor and outdoor use.

SURFACES:

metal elements exposed to corrosion (garden fences, gates, handrails, gardening tools, playground equipment, etc.)

COLOURS:

gold, silver, black.

CAPACITY:	400 ml
FINISHING LEVEL:	satin
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

GLITTER EFFECT

QUICK-DRYING

DOES NOT COVER THE ENTIRE SURFACE

FINAL RESULT DEPENDS ON THE COLOUR OF THE PAINTED ELEMENT

Quick-drying decorative spray paint that provides a delicate glitter shine. Suitable for indoor and outdoor use. Works on metal, wood, glass, ceramics, paper and many other surfaces. For plastic surfaces, use a special primer designed for plastics.

SURFACES:

suitable for metal, wood, glass, ceramic and many other surfaces.

COLOURS:

silver, gold.

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

RUST EFFECT

GOOD COVERAGE

CREATES A ROUGH, RUSTY COATING

High-quality, quick-drying spray paint designed to create a rough, rusty surface texture. Suitable for both indoor and outdoor use. Can be applied to metal, wood, glass and ceramics. For plastic surfaces, use a special primer designed for plastics.

SURFACES:

metal, wood, glass, stone and ceramics.

COLOURS:

rusty.

CAPACITY:	400 ml
FINISHING LEVEL:	structured finish
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

SAND EFFECT

QUICK-DRYING

CREATES A ROUGH COATING

Decorative, quick-drying spray paint designed to create a natural desert sand texture. Ideal for modern country-house style décor, garden accessories and any objects that should be given a sandy, desert-inspired look. For indoor and outdoor use. Suitable for metal, wood, glass, ceramics, paper and stone. For plastic surfaces, use a special primer for plastics.

SURFACES:

metal, wood, glass, stone, cardboard, plaster, etc.

COLOURS:

desert sand yellow.

CAPACITY:	400 ml
FINISHING LEVEL:	structured finish
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

STONE EFFECT

QUICK-DRYING

CREATES A ROUGH COATING

Decorative spray paint that gives a natural, stone-like texture to various items. For indoor and outdoor use. Suitable for metal, wood, glass, ceramics, paper and stone. For plastic surfaces, use a special primer for plastics. For the best stone-like texture, apply 2–3 coats. Allow approximately 1 hour between layers.

SURFACES:

metal, wood, glass, ceramics, cardboard, etc.

COLOURS:

natural stone (light grey, grey, dark grey)

CAPACITY:	400 ml
FINISHING LEVEL:	structured finish
DRY-TO-TOUCH:	3 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

MARBLE EFFECT

DOES NOT COVER THE ENTIRE SURFACE

THE FINAL EFFECT DEPENDS ON THE COLOUR OF THE PAINTED ELEMENT

High-performance, elegant marble-finish spray for special decorative projects, both indoors and outdoors. Suitable for metal, wood, glass, ceramics, paper and cardboard. For plastic surfaces, use a special primer for plastics.

SURFACES:

metal, wood, glass, ceramics, porcelain, paper, cardboard

COLOURS:

white, black, gold

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

CRACKLE EFFECT

DOES NOT COVER THE ENTIRE SURFACE

THE FINAL EFFECT DEPENDS ON THE COLOUR OF THE PAINTED ELEMENT

Professional decorative spray paint that creates a unique old, cracked-paint effect. Suitable for indoor and outdoor use. Designed for metal, wood, glass, ceramics, porcelain, paper, cardboard, stone and some plastics.

To achieve the desired crackle effect, follow these steps:

1. Paint the surface with a universal paint in the chosen base colour and allow it to dry.
2. Apply Crackle Effect spray paint as the topcoat.

SURFACES:

metal, wood, glass, ceramics, porcelain, paper, cardboard, stone, plastic

COLOURS:

white, black

CAPACITY:	400 ml
FINISHING LEVEL:	mat
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

PRIVATE LABEL

TRANSPARENT COLOUR

QUICK-DRYING

CREATES A COLOURED TRANSPARENT COATING

Decorative spray paint designed for glass and transparent plastic objects, such as lamp shades, glassware, glass lamps, and similar items. The number of layers applied determines the colour intensity and the level of light transmission. Suitable for indoor and outdoor use.

SURFACES:

For surfaces made of glass and transparent plastics, such as lamp shades, glassware, glass lamps, etc.

COLOURS:

Red transparent, blue transparent

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	10 min
COMPLETELY DRY:	24 h

FROSTED GLASS

CREATES A SEMI-TRANSPARENT EFFECT

FOR WINDOWS AND MIRRORS

GOOD COVERAGE

Decorative spray paint that creates the appearance of semi-transparent, frosted (milk) glass. The final effect depends on the number of layers applied. Suitable for indoor and outdoor use.

SURFACES:

For surfaces made of glass, plastic, mirrors, etc.

COLOURS:

Milk glass

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	2-3 h
COMPLETELY DRY:	within 2-3 days

PRIVATE LABEL

GARDEN FURNITURE PAINT

FOR PLASTICS

SCRATCH-RESISTANT

Quick-drying and durable spray paint designed for plastic items such as chairs, tables and flower pots. Suitable for indoor and outdoor use. Does not require a plastic primer.

SURFACES:

For surfaces made of plastic.

COLOURS:

White, brown, green

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	within 2–3 days

PLASTIC PRIMER

QUICK-DRYING

ENSURES EXCELLENT ADHESION OF TOPCOAT PAINTS

GOOD COVERAGE

Quick-drying spray primer for plastic surfaces. It creates a perfectly adhesive coating that protects the material and prepares it for further painting. Suitable for indoor and outdoor use.

SURFACES:

For surfaces made of EVA, PVC, PUR, EPDM, ABS, XPE and other similar materials.

COLOURS:

White

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	30 min
COMPLETELY DRY:	24 h

PRIVATE
LABEL

FURNITURE CHALK PAINT

GOOD COVERAGE

CREATES A DEEP MATT COATING

Decorative paint that gives objects an elegant, vintage wood effect with a deep matt finish. For indoor and outdoor use. Suitable for metal, wood, glass, stone and paper. For plastics use a special primer for plastics.

SURFACES:

For furniture, doors and decorative items made of wood and wood-based materials.

COLOURS:

White, beige, brown, grey, turquoise, mint green.

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

CHALK PRIMER

QUICK-DRYING

SMOOTHES THE SURFACE

Seals and smooths surfaces and improves the adhesion of chalk paint. Suitable for wood, metal, glass and plastic.

SURFACES:

For surfaces made of wood, metal, glass, plastic etc.

COLOURS:

Transparent

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	1-2 h
COMPLETELY DRY:	within 2-3 days

PRIVATE LABEL

CHALK WAX

PROTECTS THE WOOD

ADDS SHINE AND A SMOOTH TOUCH

Spray wax designed for the final protection of natural wood or surfaces painted with chalk paint. Ideal for restoring old furniture and wooden decorations. Creates a protective coating with a subtle satin finish. For indoor use.

SURFACES:

For natural wood and surfaces painted with chalk paint.

COLOURS:

Transparent

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	-
COMPLETELY DRY:	24 h, polish min. 5 minutes after application

CHALK VARNISH

QUICK-DRYING

PROTECTS CHALK PAINT

MOISTURE-RESISTANT

Colourless, quick-drying varnish designed to protect surfaces painted with chalk paint. Strengthens the coating and provides resistance to moisture. For indoor and outdoor use.

SURFACES:

For surfaces painted with furniture chalk paint. Strengthens and protects the coating against impacts and stains.

COLOURS:

Transparent

CAPACITY:	400 ml
FINISHING LEVEL:	gloss
DRY-TO-TOUCH:	15 min
COMPLETELY DRY:	24 h

PRIVATE LABEL

HIGH HEAT (600°C)

QUICK-DRYING

GOOD COVERAGE

WEATHER-RESISTANT

Heat-resistant spray paint for metal parts exposed to temperatures up to 600°C, for both indoor and outdoor applications. Do not use primers before painting. After application, allow the paint to dry for 1 hour, then heat-cure the surface for 30–60 minutes at 200°C.

SURFACES:

For surfaces made of metal and cast iron.

COLOURS:

White, silver, anthracite, red, black

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	72 h

DAMP SEAL

INSULATES SURFACES AGAINST THE REAPPEARANCE OF STAINS

PROTECTS AGAINST MOISTURE

Primer paint designed to block and cover persistent stains such as nicotine, soot, damp marks, grease, etc. For interior use.

SURFACES:

For most interior walls and ceilings, including plaster, cement and stone.

COLOURS:

White

CAPACITY:	400 ml
FINISHING LEVEL:	matt
DRY-TO-TOUCH:	1 h
COMPLETELY DRY:	24 h

PRIVATE LABEL
